Foreword

As Minister responsible for multiculturalism and citizenship in Ontario, and as a Hamiltonian, I am pleased to introduce Maps and Demographic Statistics for Selected Mother Tongue Groups, Hamilton Census Metropolitan Area, 1981. This is an updated version of the earlier volume for the Hamilton area which was based on the 1976 census, and another in the series of mother tongue publications for Ontario and other large metropolitan areas.

The publication contains computer maps of the population distributions of fourteen of the largest mother tongue groupings in the Hamilton area. In addition, it provides detailed tabulations about specific mother tongue groups. Key points are identified in the Highlights section to assist in the use of the information.

Further information is available in my Ministry to augment the data contained in this publication. We welcome your inquiries.

Lily Munro

Minister

HAMILTON CENSUS METROPOLITAN AREA, 1981

PREFACE

This volume, Maps and Demographic Statistics for Selected Mother Tongue Groups, Hamilton Census Metropolitan Area, 1981, has been produced for the Ethnocultural Data Base of the Ontario Ministry of Citizenship and Culture as part of its Multicultural Program, in support of the ministry's lead role in multiculturalism. It updates the similar volume for the Hamilton Census Metropolitan Area, 1976.

The major purpose of the Ethnocultural Data Base is to provide the Ontario Government with information about the patterns of residential settlement and the socio-demographic characteristics of Ontario's ethnocultural groups. As well, the information provided in this publication is expected to be helpful to other levels of government, business and industry, community organizations and agencies, post-secondary institutions, and the public generally.

The data included in this volume were compiled under the supervision of Dorene E. Jacobs, Research Officer, and Maryelle Tetreault, Assistant Research Officer. The Highlights section was written by Carole Carter, who also completed the computerized tables originally generated by Melissa Breakwell. The data are based on the 1981 Census of Population and Households, obtained from Statistics Canada through the Statistics Section of the Sectoral and Regional Policy Branch of the Ministry of Treasury and Economics. The maps were produced by the Geocartographics Subdivision of Statistics Canada.

Additional copies may be obtained from the Ontario Government Bookstore. Also on sale is a similar volume for Ontario: Maps and Demographic Statistics For Selected Mother Tongue Groups Ontario 1981, as well as the Mother Tongue Atlas of Metropolitan Toronto, Volume 2, 1981 which provides maps, charts and tables of the largest mother tongue groups in Metropolitan Toronto together with detailed profiles for each of the six municipalities within Metro.

Still available are the publications containing detailed 1976 mother tongue data for nine Census Metropolitan Areas: (Hamilton, Kitchener, London, Oshawa, Ottawa-Hull (Ontario part), St. Catharines-Niagara, Sudbury, Thunder Bay and Windsor) which will be updated with 1981 census data.

The Ontario Government Bookstore is located at 880 Bay Street, Toronto for personal shopping. Out-of-town customers can write to Publications Services, 5th Floor, 880 Bay Street, Toronto, Ontario M7A 1N8. In Metro Toronto, call 965-6015. Outside Metro, dial 1-800-268-7540, toll free. In area code 705, call the operator and ask for Zenith 67200.

IV. Summary Tables of Demographic Statistics, Selected Mother Tongue Groups as well as English and French:

Table 1: Distribution of Population by Selected Mother Tongue Groups, Age and Sex, 1981

2: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Marital Status, 1981

3: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Level of Education, 1981

4: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Labour Force Activity, 1981

5: Distribution of Experienced Labour Force by Selected Mother Tongue Groups, Age, Sex and Class of Worker, 1981

6: Distribution of Experienced Labour Force by Selected Mother Tongue Groups, Age, Sex and Occupation, 1981

7: Distribution of Population by Selected Mother Tongue Groups, Age, Sex and Place of Birth, 1981

8: Distribution of Population 5 years and over by Selected Mother Tongue Groups, Age, Sex and Mobility Status, 1981

9: Distribution of Families by Selected Mother Tongue Groups, Family Structure and Age of Family Head, 1981

10. Distribution of Families with Children at Home by Selected Mother Tongue Groups, and Age of Family Head, 1981

STATISTICS CANADA DEFINITIONS

Mother Tongue: The language first learned and still understood. Infants who have not yet learned to speak are considered to have as mother tongue the language most often spoken in the home.

Census Division (CD): General term applying to counties, regional districts, regional municipalities, etc. There are 53 Census Divisions in Ontario.

Municipality: Area with corporate status governed by Provincial and Territorial Acts.

Census Subdivision (CSD): General term applying to municipalities, Indian Reserves, unorganized territories and subdivisions.

Census Metropolitan Area (CMA): The main labour market area of an urbanized core (or continuous built-up area) having 100,000 or more population. CMAs are created by Statistics Canada and are usually known by the name of their largest city. They contain whole municipalities (or census subdivisions). CMAs are comprised of (1) municipalities completely or partly inside the urbanized core, and (2) other municipalities, if (a) at least 40% of the employed labour force living in the municipality works in the urbanized core, or (b) if at least 25% of the employed labour force working in the municipality lives in the urbanized core. In 1976 there were 10 Census Metropolitan Areas in Ontario.

Component: The municipality or census subdivision forming part of a census metropolitan area or census agglomeration.

Census Family: Consists of a husband and a wife (with or without children who have never married, regardless of age) or a lone parent, regardless of marital status, with one or more children (who have never married, regardless of age) living in the same dwelling.

Family Structure: Refers to the classification of census families into husband-wife families or lone parent families. HUSBAND-WIFE FAMILIES consist of a husband and a wife (with or without children), or persons who live common-law (with or without children). LONE PARENT FAMILIES consist of a parent, regardless of marital status, with one or more children living in the same dwelling.

Family Head (1971 definition): The husband in a husband-wife family, or the parent in a one-parent family.

Age of Family Head: Refers to population 15 years of age & over.

Mobility Status - Place of Residence 5 Years Ago: Refers to the relationship between a person's usual place of residence on Census Day and his/her usual place of residence five years earlier. On the basis of this relationship, the population is classified as NON-MOVERS and MOVERS (MOBILITY STATUS). Within the category MOVERS, a further distinction is made between NON-MIGRANTS and MIGRANTS (MIGRATION STATUS). NON-MOVERS are persons who, on Census Day were living in the same dwelling they occupied five years earlier. MOVERS are persons who, on Census Day, were living in a different dwelling than the one occupied five years earlier. NON-MIGRANTS are movers who, on Census Day were living within the same census subdivision they resided in five years earlier Migrants are movers, who, on Census Day, were residing in a different CSD within Canada five years earlier (INTERNAL MIGRANTS) or who were living outside Canada five years earlier (EXTERNAL MIGRANTS).

Place of Birth: Refers to birthplace as either in Ontario, in another province or outside Canada. This data is based on 20% (1/5) sample.

Inmate: Refers to a resident of an "institutional" collective dwelling, other than staff members and their families.

Remarks: "Institutional" collective dwellings are orphanages and children's homes, special care homes and stitutions for the elderly and chronically ill, general hospitals, psychiatric hospitals, treatment centres and institutions for the physically handicapped, penal and correctional institutions, juvenile delinquent homes and jails.

In the 1981 Census, data for inmates were not collected for the 20% sample variables: place of birth, citizenship, year of immigration, ethnic origin, religion, home language, official language, education (all components), mobility status, fertility, date of first marriage, labour force and work activity (all components), class of worker, occupation, industry, place of work and income. Therefore, all tabulations or output containing these sample variables will not include inmates. This is in contrast to the 1971 and 1976 Census data which did include inmates in many of the sample variable tabulations and output. There were approximately 215,000 inmates enumerated in Canada in the 1976 Census.

Labour Force: Refers to the labour market activity of the population 15 years of age and over, excluding inmates, who, in the week prior to enumeration (June 3, 1981) were **Employed** or **Unemployed**. The remainder of the working age population are classified as **Not in labour force**. The two components of the labour force are defined as below.

Employed: The Employed includes those persons who, during the week prior to enumeration:

(a) did any work at all; or

(b) were absent from their jobs or businesses because of own temporary illness or disability, vacation, labour dispute at their place of work, or were absent for other reasons.

Unemployed The Unemployed includes those persons who, during the week prior to enumeration:

(a) were without work, had actively looked for work in the past four weeks and were available for work; or

(b) had been on lay-off for 26 weeks or less and expected to return to their jobs; or

(c) had definite arrangements to start a new job in four weeks or less.

Labour Force, Experienced: Derived by deleting from the total labour force unemployed persons 15 years of age and over who have never worked or who had worked only prior to January 1, 1980.

Participation Rate: Refers to the percentage of the total labour force (in reference week) forms of the total population 15 years of age or over, excluding inmates, in an area, group or category. This is a derived variable.

Reported for: Population 15 years of age and over, excluding inmates.

Remarks: In 1976 and 1971, while inmates were excluded from the labour force, they were normally included in the population in calculating participation rates.

Unemployment Rate: The percentage the unemployed labour force forms of the total labour force in the category or area.

Not in the Labour Force: The Not in labour force classification refers to those persons, who, in the week prior to enumeration, were unwilling or unable to offer or supply their labour services under conditions existing in their labour markets. It includes persons who looked for work during the last four weeks but who were not available to start work in the reference week, as well as persons who did not work, did not have a new job to start in four weeks or less, or did not look for work in the four weeks prior to enumeration. Most persons in this category would be students, homemakers, retired workers, seasonal workers in an "off" season who were not looking for work, and persons who could not work because of a long-term illness or disability. Inmates of institutions were not asked the questions on labour force activity in 1981 and therefore are excluded from the universe to which the data apply.

Occupation: Refers to the kind of work persons 15 years of age and over, excluding inmates, were doing during the reference week, as determined by their reporting of their kind of work and the description of the most important duties in their job.

HIGHLIGHTS - HAMILTON CENSUS METROPOLITAN AREA

Total Population & Mother Tongue Distribution - Table 1

- The population of the Hamilton area increased by 2% from 529,370 in 1976 to 542,095 in 1981 which represented 6% of Ontario's total population. However, the proportion of the population that reported either English or French as their mother tongue declined slightly from 83% to 81%.

- The non-English/non-French mother tongue groups comprised approximatley one-fifth of the total population, the largest group being Italian (5%), followed by German (2%), Dutch (1%), Polish (1%) and Ukrainian (1%).

Age & Sex - Table 1 - Total Population

- Two-thirds of the population were in the 15-64 age group with the under 45 group declining slightly from 71% in 1976 to 69% in 1981. Over 80% of the Portuguese and Indo-Pakistani mother tongue population were under 45 as compared to approximately one-third of the Ukrainian and Polish mother tongue groups.

- Twelve percent of all females were over 65 as compared to 9% of all males. However, in the non-English/non-French mother tongue groups, 14% of the females and 12% of the males were over 65. In the Slovak, Magyar (Hungarian) and Ukrainian mother tongue groups, at least one quarter of the females were over 65 years of age.

- In 1981, females outnumbered males in the total Hamilton population. In the non-English/non-French mother tongue groups, males generally outnumbered females; this was the case most notably with the Croatian, Serbian, Slovenian and Yugoslavian mother tongue groups, as well as the Italian mother tongue group.

Marital Status - Table 2 - Population 15 years of age and over

- Sixty-two percent of the population were married, 6% were divorced or separated and 7% were widowed. In the English and French mother tongue groups, 59% of the population were married and 6% were divorced or separated whereas in the non-English/non-French mother tongue groups nearly three-quarters of the population were married and 4% were divorced or separated.

- The Dutch mother tongue group had the highest proportion of married people (84%) and the French mother tongue group had the highest proportion of divorced or separated persons (8%).

- Females comprised over 80% of widowed persons and nearly two-thirds of divorced or separated persons in Hamilton. The mother tongue groups with the highest proportion of widowed females were Chinese (91%), Portuguese (88%) and those with the lowest were Spanish (50%) and Greek (72%).

Education - Table 3 - Population 15 years of age and over

- The percentage of Hamiltonians with some post-secondary (including university) education increased substantially from 30% in 1976 to 39% in 1981. Forty-three percent of the population had some secondary school (grades 9-13) education and the percentage of Hamiltonians with less than grade nine education decreased in 1981 to 17% from 22% in 1976.

- In the non-English/non-French mother tongue groups, 36% of the population had some post-secondary (including university) education, 27% had some secondary school education and 37% had less than grade nine education.

- By comparison, the proportion of females in the non-English/non-French mother tongue groups with less than grade nine education was 41%, and those with some post-secondary (including university) was approximately one-third. Two-thirds of the females in the Portuguese mother tongue group had less than grade nine education and 64% of the females in the Hindi population had some university education.

- The percentage of the total population with some post-secondary (non-university) education increased notably from 15% in 1976 to 24% in 1981.

- The mother tongue groups with the highest proportion of their population with some university education were Hindi (68%), Urdu (56%) and Punjabi (36%).

Labour Force Activity - Table 4 - Population 15 years of age and over

- Two-thirds of the population were in the labour force, of whom 59% were male and 41% were female.

- The unemployment rate in 1981 was 6% at which time the Netherlandic and Spanish population had an unemployment rate of 1%. The Indo-Pakistani mother tongue group saw a decrease in their unemployment rate from 12% in 1976 to 9% in 1981.

Class of Worker and Occupation - Tables 5 and 6 - Population 15 years of age and over (Experienced Labour Force)

- Ninety-six percent of the total experienced labour force were classified as "paid workers" and 4% as "self-employed". The Greek and Dutch mother tongue groups had the highest percentage of persons classified as "self-employed" (11%) and the Portuguese and Spanish had the least (1% or less).

- One-quarter of the labour force were employed in professional and administrative positions, of which 41% were female. The mother tongue group with the highest proportion of their population in this category was Urdu (53%) and the lowest was Portuguese (5%).

- Manufacturing and construction occupations accounted for one-third of the labour force with females comprising 13% of this occupational group. Approximately two-thirds of the Croatian mother tongue group was employed in this area as compared to 20% of the Chinese mother tongue population.

- Clerical, sales and service positions accounted for the largest proportion of the labour force (40%) as well as the highest proportion of females (65%). The Greek population had nearly one-half of their labour force employed in this category.

Place of Birth - Table 7 - Total Population

- Twenty-six percent of the total population of Hamilton was born outside Canada as compared to 24% of the total population of Ontario. The mother tongue groups in Hamilton with the highest proportion of their population born outside Canada were: Dutch (93%), Hindi (91%) and Spanish (89%).

- Over one-half of the Ukrainian mother tongue group was born in Canada as was nearly one-third of the Italian mother tongue population.

Mobility Status - Table 8 - Population 5 years of age and over

- Fifty-six percent of Hamiltonians were living in the same dwelling they occupied in 1976 (non-movers). This represents a slight increase from 53% in 1976.

- Approximately three-quarters of the Ukrainian, Italian and Polish mother tongue populations were classified as non-movers as compared to less than one-third of the Chinese, Urdu and Spanish mother tongue populations.

- In the five year period between 1976 and 1981, approximately 11,000 persons from outside Canada (or 2% of the population) moved to the Hamilton area.

Family Structure - Table 9 and 10 - Family Head 15 years of age and over

- The number of census families in Hamilton increased in 1981 to 146,890 from 138,725 in 1976. Of these, 89% were husband/wife families and 9% were single parent families headed by a female.
- The English and French mother tongue groups had the highest proportion of lone parent families (12%) of which 85% were headed by a female. The proportion of lone parent families for the non-English/non-French mother tongue groups was lower (8%) of which 81% were headed by a female.
- Two-thirds of all families had children at home and of these 77% had 1 or 2 children at home but only 6% had four or more children at home.
- The Dutch mother tongue group had the highest proportion (21%) of families with 4 or more children at home and the Hindi mother tongue group did not report any families with 4 or more children at home in 1981.
- The mother tongue groups with the highest proportion of families with children at home were Punjabi (90%) and Portuguese (85%) and those with the lowest were Ukrainian (56%) Polish (58%) and Hungarian (58%).
